# El Primer Reporte Público de Recursos Minerales de un Yacimiento (Maiden Mineral Resource Report)

Taller: “Exploración y clasificación de  
Recursos Minerales”

7 Mayo 2019

Aquiles González

# Competencia:

## Resultados de Exploración, Código 20235, Chile (Mineral Inventory)

---

### □ Persona Competente

- Consentimiento a publicar
- Debe declarar dependencia o independencia de la Compañía

### □ Reportar

- Reportar datos analíticos
- Rangos de tonelaje y de leyes
- Establecer claramente que el Resultado de Exploración no es Recurso
- Lenguaje cuidadoso al referirse a estimaciones históricas.

# Maiden resource report (Primer)

---

- En NI-43101 se releva en los reportes el cambio de categoría de Inventario Mineral o Resultados de Exploración a Recursos
- Si es material para las Compañías puede impactar el valor de las acciones.

# Material (Normas Canadá)

---

- Una propiedad es material si:
  - El reporte público se focaliza en esa propiedad
  - El reporte indica o sugiere que los resultados son importantes o significativos
  - Los gastos de exploración acumulados o proyectados son significativos respecto a otras propiedades del titular.
  - El titular dedica fondos significativos o se encuentra levantando dinero para explorar y desarrollar la propiedad

## First Vanadium Corp. Announces Maiden Mineral Resource Estimate at Carlin Vanadium Project, Nevada

Vancouver, British Columbia--(Newsfile Corp. - February 27, 2019) - **First Vanadium Corp. (TSXV: FVAN) (OTCQX: FVANF) (FSE: 1PY) (formerly Cornerstone Metals Inc.) ("First Vanadium" or the "Company")** is pleased to announce that SRK Consulting (U.S.), Inc. ("SRK") has completed an independent National Instrument 43-101 ("NI 43-101") compliant mineral resource estimate (Table 1) on the Carlin Vanadium deposit located 6 miles south of Elko, Nevada. The mineral resource estimate replaces the 2010 SRK historic mineral resource estimate.

TORONTO, Dec. 12, 2018 (GLOBE NEWSWIRE) -- **Fura Gems Inc. (TSXV: FURA, OTC: FUGMF and FRA: BJ43) ("Fura" or the "Company")** is pleased to announce a maiden Mineral Resource estimate for its 76% owned Coscuez emerald mine in Colombia (the "Coscuez Emerald Mine", or "Coscuez"), and the first Mineral Resource estimate in the Colombian emerald sector.

## ENDEAVOUR ANNOUNCES MAIDEN RESOURCE AT THE GREENFIELD FETEKRO PROPERTY

### FETEKRO HIGHLIGHTS:

- In line with Endeavour's objective of discovering a standalone project, exploration was launched on the Ivorian Fetekro property in 2017
- Most of the drilling to-date has focused on the Lafigué target where a first maiden resource has been delineated:
  - › Indicated resource of 6.8 million tonnes at 2.25 g/t Au for 494 Koz
  - › Inferred resource of 3.0 million tonnes at 2.25 g/t Au for 225 Koz
  - › The delineated resource encompasses approximately two-thirds of the total mineralized area defined to date which extends over an area 2.5 km long by 0.6 km wide
  - › The mineralization remains open at depth towards the southeast, east and northeast.
- 14 additional nearby targets have been identified
- Preliminary metallurgical test work suggests the potential for high gold recovery rates
- A 45,000m drilling program began in Q4-2018 and will continue in 2019, focused on the Lafigué target and testing new targets, which is expected to result in the publication of an updated resource estimate in late 2019

Abidjan, October 29, 2018 – Endeavour Mining (TSX:EDV)(OTCQX:EDVMF) is pleased to announce a maiden resource estimate on the Lafigué target, located within the Ivorian Fetekro greenfield exploration property, and the identification of 14 additional nearby targets.

PRESS RELEASE

## Desert Lion Energy Announces Maiden Mineral Resource Estimate Establishing a Significant Lithium (Lepidolite) Project

Published: Oct 12, 2018 7:00 a.m. ET

TORONTO, Oct. 12, 2018 (Canada NewsWire via COMTEX) -- Desert Lion Energy Inc. (DLI) (otcqb:DSLEF) ("Desert Lion" or the "Company") is pleased to announce its maiden Mineral Resource estimate ("MRE") completed for its Namibian Lithium project. The MRE was prepared by independent consultants The MSA Group (Pty) Ltd. ("MSA") of South Africa.

# Transparencia: NI43-101, Osisko (TSX-V:OM), Key Anacon y Titan Zone, New Brunswick, Canadá

- Yacimiento Pb-Zn-Ag
- Reporta Recursos (históricos)
- Reporta Intersecciones de sondajes recientes especificando que la **continuidad no ha sido demostrada.**
- El informe es muy claro en separar ambas categorías.

## Key Anacon -Titan Zone - Longitudinal Looking West

Proyecto Pyramid, Alaska, 2012
